Data Scientist in a fast-growing Computer Science department

Fordewind

Fordewind Group is a fast-growing finance company focused on investment in alternative assets (SME fixed income products) and investment banking services. The company is founded and led by highly experienced financial professionals (ex. J.P. Morgan, UBS, VTB Capital, Sberbank CIB, EY, KPMG). We are looking for middle and senior data scientists to join a new department of computer science and accelerate the firm's expansion, providing an opportunity to dive deep into multiple practices, exclusive team spirit, challenging tasks and chance to grow into leadership role quickly.

Key Responsibilities
- Development of ML-models;
- Maintenance and development of current projects;
- Business development streams and critical review of new business opportunities;
- Guidance of junior team members.

Requirements
- Strong knowledge of Python (including numpy, pandas, sklearn);
- Excellent knowledge of statistics and machine-learning algorithms (Logistic Regression, Random Forest, LightGBM, clustering methods over tabular data and time series, etc);
- Expertise in time series models (ARIMAX, GARCH) and probabilistic models (Markov Chains, Bayesian Models);
- Experience in validation and deployment of models;
- Top of the class with preferences given to faculties with in-depth study of mathematics/physics (HSE, NES, MSU, MIPT).

Our Offer
- High level of independence with significant opportunities for career and professional growth;
- Steep learning curve across several projects;
- Flat corporate structure;
- Flexible and "startup-like" working environment with young and motivated team members;
- Competitive compensation, transparent bonus system;
- Opportunity to lead new business lines.

Please, send your CV and CL to elena@fdw.ru, a.lysenko@fdw.ru
